

## Voltphreaks LLC Warranty and Liability Statement

It is expressly understood and agreed between purchasers and Voltphreaks LLC that as part of the bargain between Voltphreaks LLC and purchasers, and in consideration of doing business with each other, all purchasers take, select and purchase said racing parts, equipment, any and all inventory, from Voltphreaks LLC "as is" and with "all faults".

Voltphreaks racing batteries are intended for track use only. Racing is an action sport and such activity is subject to mishap and even injury to participants. The purchaser understands and acknowledges that racing and other off-road activities (organized or personal recreation) have inherent dangers that no amount of care, caution, instruction or expertise can eliminate.

Batteries are expected to last 5 to 10 years when not abused, but due to the unpredictable nature of racing, batteries are warranted for two years from date of purchase for defects in materials and workmanship to the original purchaser only. Any paid service or update of a battery will start a new 1 year warranty. This is an off road use only racing battery meant for users who are willing to accept all risks and shortcomings arising from use of product. We do not warranty the suitability of the product for any particular purpose; it is up to the user to determine suitability. Voltphreaks LLC's warranty on any non-battery product is 30 days from date of purchase.

Warranty covers the replacement or repair of the battery itself only. Damages to user's car, injury, installation labor, and other damages are not covered by this warranty. In the event that a repair under warranty is not possible, a suitable model may be provided. In no event shall Voltphreaks LLC's liability exceed the purchase price of the battery.

- Products must be professionally installed.
- For all warranty service, buyer is responsible for any duties, taxes, shipping costs, etc.
- Voltphreaks does not cover installation costs, or any consequent damages resulting from use of product other than costs to repair/replace battery. Customer bears all risk.
- Voltphreaks LLC expressly disclaims liability of any and all consequential damages caused by use of this product and the breach of any written or implied warranty pertaining to this sale in excess of the purchase price of the product sold.
- Battery must be installed and used properly and as intended (as an automotive starter battery) or warranty will be void. Damage to battery, property, or person from misuse, accident, theft, overcharging, short circuit, disassembly, or fire is not covered. Voltphreaks assumes no liability from misuse of information or installation of products.
- Battery is not user serviceable. Warranty is void if battery is tampered or modified.
- If battery has failed and/or turns off during use due to the fault detection turning the battery off, battery must not be used further or warranty is void.
- Over-discharging, over-charging, drawing excessive current from the battery, exposing the battery to water, and other standard abuses of a battery shall void the warranty.
- NEVER USE ANY PHYSICALLY DAMAGED BATTERY, AS IT IS UNSAFE. WARRANTY WILL ABSOLUTELY NOT BE HONORED IF A PHYSICALLY DAMAGED BATTERY IS USED.

Retain original receipt. Warranty is non-transferable. For non-warranty repairs after 2 years, contact us at support@voltphreaks.com. Revised 2013/10/11.
